REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or render obvious the overall claimed invention of a graft grasping device comprising: a inner wall of a graft grasping portion having a recessed portion which communicates with a lumen of the suction tube, the recessed portion being covered with a sheet having a plurality of pores, and a mesh sheet being provided in a space defined between the recessed portion and the sheet. The Examiner agrees with the Applicant's argument that the combination of Kiyoshige/Grasso does not teach a space defined between the recessed portion and the sheet in which to provide a mesh.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
